Professional Goal

I am a sophomore who is pursuing a career in computer science. I strive to obtain an internship position in software engineering. It would be a great opportunity to apply the skills that I have acquired and gain further knowledge while applying that knowledge at a thriving company.

LEADERSHIP AND INVOLVEMENT

Hack CU, University of Colorado at Boulder
Organizer

August 2015 – Present

- Help talk to companies and get sponsorships to expand HackCU.
- Help undergrads apply their knowledge in computer science.
- Help set up and maintain Hackathons hosted at CU

Drumline Squad Carmel Catholic High School
Snare Drum Captain

August 2011- June 2014

- Taught the freshman and sophomores drum techniques
- Helped underclassmen for auditions
- Kept the snare drummers in line and lead drills

Projects and Hackathons

- Attended the Coinorado Bitcoin Hackathon at Boulder in 2014 and Local Hack Day at CU in 2015.
- Created a program that takes a command via SMS and send back a text from the server that shows your online bitcoin wallet balance with real-time transaction rates.
- Created a porotype robotic hand that runs off of a raspberry pi, i2c board, and 5 servos. Written in python.

WORK EXPERIENCE

Fotodiox Inc, Waukegan, IL
Intern

May 2014 - August 2015

Summer of 2015:

- Managed the company's eBay clearance store
- Listed products, helped organize inventory, and answered customer questions.
- Achieved Top Seller Status

Summer of 2014

- Organize and ship packages in the warehouse
- Update product photos on company website
