LEADERSHIP AND INVOLVEMENT

Hack CU, University of Colorado at Boulder   **August 2015 – Present**
Head Of Sponsorship

- Lead a team to talk to companies and get sponsorships to expand and fund HackCU.
- Help undergrads apply their knowledge in computer science.
- Set up and maintain Hackathons hosted at C

EDUCATION

- **University Of Colorado At Boulder**   **Expected Graduation: May 2018**
- **Major: B.A. Computer Science**

PROJECTS AND HACKATHONS

- Attended the Coinorado Bitcoin Hackathon at Boulder in 2014 and Local Hack Day at CU in 2015.
- Created a program that takes a command via SMS and send back a text from the server that shows your online bitcoin wallet balance with real-time transaction rates for Bitcoin Hackathon.
- Created a prototype robotic hand that runs off of a raspberry pi, i2c board, and 5 servos. Written in python.
- Currently working on a Bitcoin conversion website using Nodejs, Blockchain API, HTML, CSS, and Bootstrap and in the progress of learning React.js for various web projects.
- Currently finished creating landing pages for a couple of projects. Also working on Amazon Web simulator and hoping to try to hack on Amazon Echo.

WORK EXPERIENCE

ReadyTalk, Denver, CO *Intern*   **June 2016 – August 2016**

- Work with a team in an agile environment to create a SlackBot that summarizes slack messages.
- SlackBot uses Watson API, Slack API, and summarizes the most important messages from a channel. Watson finds the most important keywords and messages and filters them out from the rest of the channel message. Also created a landing page for the app.

Fotodiox Inc, Waukegan, IL *Intern*   **May 2014 - August 2015**

- Achieved Top Seller Status by having a strict schedule and proving great customer support.
- Managed the company's eBay clearance store, listed products, helped organize inventory, and help customers
